

TANZANIAN CHILDREN'S FUND

ANNUAL REPORT

— 2018 —

A Letter from our Executive Director

The transformation we have seen in our community over the past 15 years is truly incredible. When India and I first started our work together, it was all about ensuring students stayed in primary school, that families had access to even the most basic medical care, and that our little ones made it to bath time.

Today, things are different. Our first children are now enrolled in college. Since making healthcare accessible, more children are surviving infancy and parents are staying healthy enough to care for them. Through our management of Gyetighi Primary School, more students than ever before are passing their exams and graduating Standard 7. Through economic empowerment, parents are now able to overcome the financial barriers of enrolling their children in secondary school.

All of our success over these past 15 years is thanks to those like you. While there is still a long road ahead and much work to be done, I want to thank you for joining us in believing in a brighter future for a generation of Tanzanians. I hope you enjoy learning more about the lives you have changed and the hope you have ignited.

With gratitude,

Peter Leon Mmassy, *Founder and Executive Director*

OUR MISSION

CREATING A HOME FOR CHILDREN.
TRANSFORMING COMMUNITIES.
BUILDING FUTURES IN TANZANIA.

Too many children and families in Tanzania do not have access to the opportunities they deserve.

70% of children never enroll in secondary school.

People struggle to access medical care, with only 3 doctors available for every 100,000 people.

Nearly half of the population lives below the poverty line.

Over 3 million children are orphaned.

We are here to change that.

We are committed to making a deep and lasting impact in our community so that all families have the resources they need to help their children thrive.

Instead of focusing on just one piece of the poverty puzzle like education or healthcare, we focus on a geographic area of about 10,000 people with the mission of providing that community with all the tools and systems that it needs to find a path out of systemic poverty.

It is our firm belief that solving just one part of the poverty equation would only leave the people we serve desperate for more instead of propelling them forward. We believe that providing a child with a quality education is meaningless if they aren't healthy enough to stay inside the classroom.

We believe that in order to decrease the number of orphaned children, even the most rural mothers need access to quality medical care. We believe that you must provide hardworking adults with economic opportunities in order for their child to advance their educations. We believe that every child should have the opportunity to experience the joys of childhood.

We believe in a brighter future for Tanzania.

It is on these beliefs that we have developed a holistic, multi-pronged, and unique approach to solving poverty by attacking its root causes from all sides.

Rift Valley Children's Village

We believe that all children should grow up feeling like they are the center of the universe. At the Rift Valley Children's Village (RVCV), we provide a loving home and forever family to 97 orphaned and marginalized children in a remote corner of northern Tanzania.

In addition to supporting the dreams of the children who call RVCV home, we also operate an Early-Childhood Care and Education Program and provide numerous scholarships to support the bright futures of all children in our catchment area.

Success in our Early-Childhood Education Program

When Prince Hamisi arrived for his first day of preschool at the Rift Valley Children's Village, he was scared, shy, and did not speak any English. So, we knew our Early Childhood Care and Education Program was creating change when we watched as Prince transformed into a little boy with more charisma than anyone knows what to do with, calling out "Can I have a push, please?!" from the swing-set in under a month.

Our focal points for this program have always been providing care, introducing a wider-world, encouraging creativity, and most importantly, having fun. However, we also wanted to ensure that we were setting these young minds up for future academic success.

When we received the end-of-term results from Gyetighi Primary School, we were eager to see how the most recent six preschool graduates performed in their first term of primary school.

To our delight, Brayan, Elvis, Norbet, Kizzie, Flavi, and Prince were the top six students in the kindergarten class at GPS, with each student scoring above the 97th percentile.

Field trips to new places and being superheroes for the day will always be what makes this initiative special. But these results prove that we are building the foundation for future student success, all while enabling parents to continue their careers. A combination that will continue to fuel lasting change in our corner of the world.

EDUCATION

Dedicated to providing our community with the highest quality education, we partnered with the local government to co-manage Gyetighi Primary School in 2007 and Oldeani Secondary School in 2013. We provide resources, employ educators, develop curriculum, renovate classrooms, expand campuses and train teachers to revolutionize the standard of education in order to best serve as many students as possible.

The Impact of Education

As we watched Paskalina Karoli approach the graduation stage at Oldeani Secondary School with flushed cheeks and a shy smile to accept yet another award for her achievements, we were reminded of the road she took to reach this proud moment.

Paskalina grew up in a local coffee plantation where her mother and father worked as farmers. From a young age, her love for reading and eagerness to learn the English language made her a stand-out student at Gyetighi Primary School.

However, prior to 2013, Paskalina understood that there was no quality secondary school available to her, even if her parents were able to cover the cost barriers of her continued education.

When TCF partnered with the government to co-manage Oldeani Secondary School, Paskalina's dreams were reignited with a new sense of hope. After completing primary school, we selected Paskalina received a scholarship from TCF to cover the expenses of her continued studies, thus eliminating the many barriers that would have prevented her from earning her high-school diploma.

Since her first day at Oldeani Secondary School, Paskalina has had the materials and support she needed to take full advantage of this opportunity.

We know that her final day at Oldeani Secondary School won't mark the end of her education as she has big plans for her future, which include a post-secondary degree. When asked what's next, Paskalina says, "I dream of being an Engineer one day, and I know now that if I put my mind to it, I can get there."

HEALTH⁺

We established our Rural Community Health Clinic to provide our catchment area with free, quality medical care. Our Registered Nurse serves not only the 97 children who call RVCV home, but provides treatment to any community member in need of care. In 2019, we plan to expand our health services to include a comprehensive Public Health Program to further the education of our community, prevent chronic disease, and address mental health.

The Importance of Health +

Life for January Tarmo and his mother, Elizabeth, would have been challenging in any country under any socio-economic condition. But living in extreme poverty in rural Tanzania with a birth defect like spina bifida made life nearly impossible.

With January unable to walk or talk, we knew we had to help Elizabeth provide her son with everything he needed to have the best life possible with his condition. TCF's Special Surgery Fund, which devotes thousands of dollars each year to providing children in our community with life-saving medical intervention, helped January get a shunt to drain excess cerebrospinal fluid from his brain into his abdomen, thus relieving the pressure in his head.

We also funded his physical rehab and gave him a wheelchair to make day-to-day life just a little bit easier for him and his mother. Going forward, Elizabeth will have access to timely and intensive care in order to give January everything he needs to live a long and comfortable life.

While life for January will always have its challenges, his hopeful story embodies the very core of our mission: to give every child and family the opportunities they need to have the brightest possible future.

Microfinance

Our Microfinance Program empowers nearly 1,000 community members to support themselves and their families by providing them with the funds, training, and resources needed to launch and operate a small business. With access to increasing loans, foundational business support, and programs like our Rift Valley Women's Group handicrafts initiative, average incomes in our area have more than doubled.

The Results of Economic Empowerment

When we visited Mama Wini John at her restaurant, satisfied customers were streaming in and out. Her husband, Moshi, was preparing for the lunch rush on the stove out back. Over a cup of tea, Mama Wini brought us up to speed on the home she built and the renovations recently completed. She shared her plans for the future of her business, which include moving her restaurant from the space they lease to a building they will soon own.

Ten years ago, life wasn't always so sweet for Mama Wini and Moshi, who struggled to support their family on the income earned as seasonal coffee pickers. Due to her education ending after primary school, Mama Wini was unqualified for most jobs that would provide a more sustainable income. She felt helpless in the fight to support her children and provide them with the opportunities she wasn't afforded as a child.

Desperate for help, Mama Wini came to TCF looking for any way out of this cycle of generational poverty. With a small loan and entrepreneurial training from our Microfinance Program, Mama Wini started making and selling mandazi (doughnuts) on the streets of Oldeani town. Within a year, she took out a second loan to open her own restaurant.

Through additional loans that led to rising profits, Mama Wini was able to build a house, raise her children in a stable environment, and cover the costs of their educations.

Mama Wini proves that our community members are more than capable of turning their dreams into realities. From them we have learned that when you combine access to knowledge, opportunity and support, even the most extreme cases of poverty don't have to be permanent.

A LETTER FROM OUR TREASURER

To our supporters and friends:

I am pleased to report that the Tanzanian Children's Fund (TCF) received approximately \$2.4 million in contributions and other revenues in Fiscal 2018, which is a historic high for TCF. On behalf of the entire Board of Directors, allow me to say a resounding THANK YOU!!!

These funds have allowed TCF to continue to support its many impactful programs and to expand into exciting new areas, such as the investments we are making at Oldeani Secondary School and the post-secondary educations of Rift Valley Children's Village (RVCV) students. In 2018, our total expenditures in the U.S. and Tanzania were approximately \$1.8 million. Of that amount, approximately 84% was spent directly on programs in Tanzania, with approximately 16% of our expenditures allocated to general overhead, including fundraising.

While we expect to continue to invest in our U.S. operations, our focus will be on using your donations to directly impact the lives of marginalized children in Tanzania. Among the many positive developments to report in 2018, I want to highlight the following:

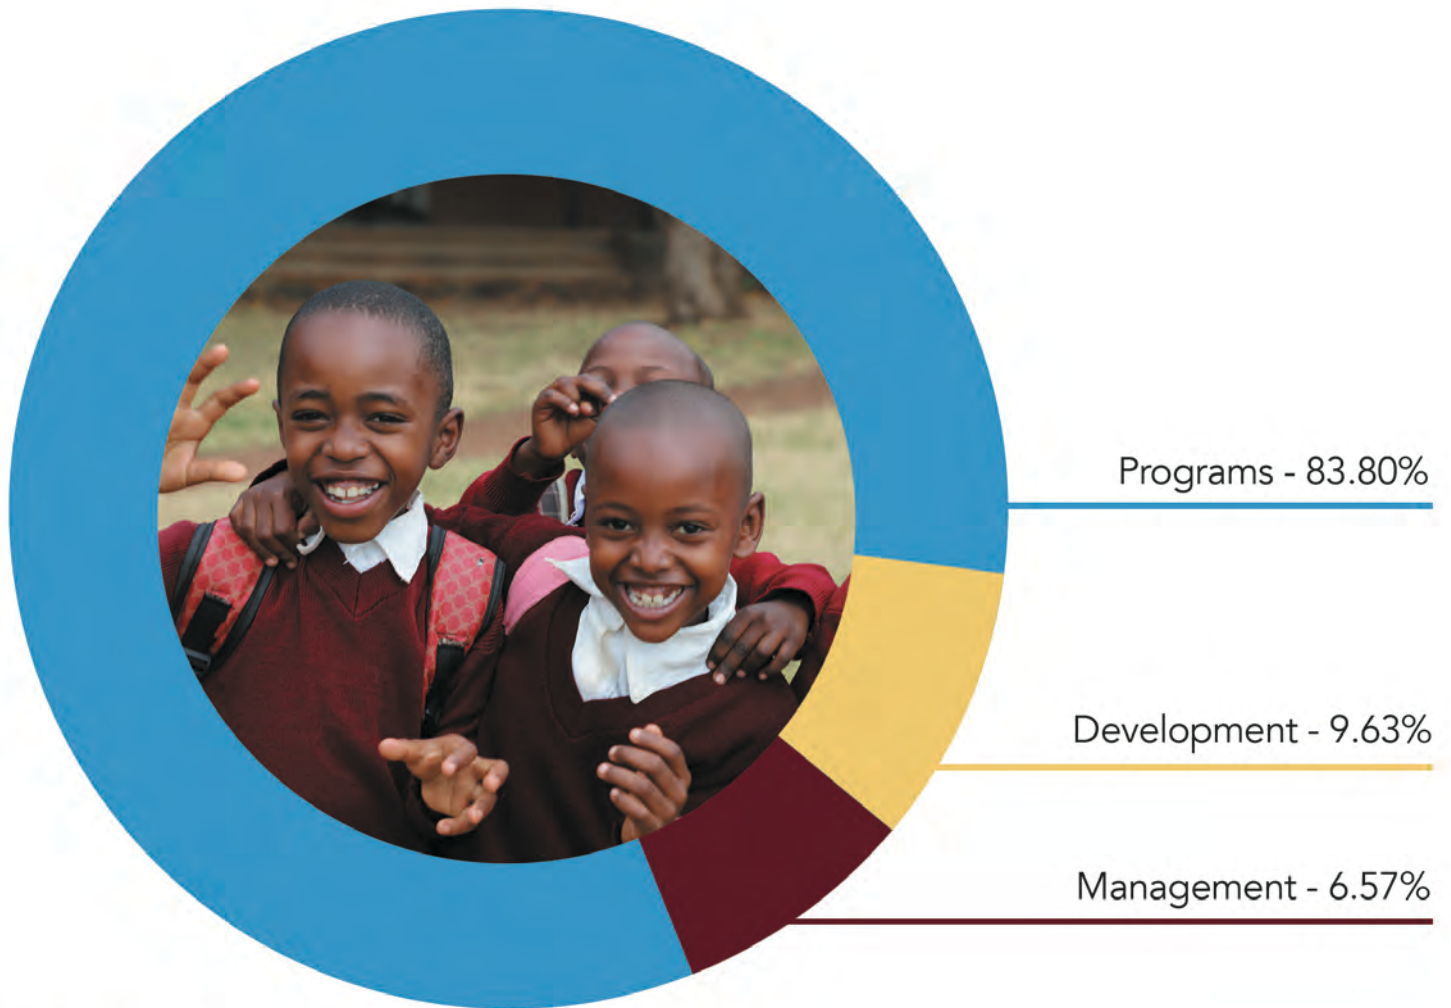

- At Gyetighi Primary School, 100% of the Standard 7 student passed the National Exam and Gyetighi was ranked the #1 government school in the District, reflecting a remarkable journey since TCF first became involved in the management of Gyetighi in 2007;
- At Oldeani Secondary School, 100% of the students passed their English exams, reflecting the positive impact of having a full-time ESL teacher at Oldeani. TCF also funded the construction of 3 new classrooms and 2 new teachers' offices at Oldeani in 2018;
- The Rural Community Health Clinic saw a total of 7,147 patients over the course of the year;
- The Microfinance Program welcomed 100 new clients in 2018, and the Program saw an increase in the total number of clients to 720 by year-end (of which 65% were women).

Our Board of Directors also continues to focus on the long-term financial health of TCF. In terms of TCF's long-term investment accounts, we ended FY 2018 in strong financial condition, with approximately \$3.4 million in our investment accounts. As of September 30, 2019, the amount in the investment accounts had increased to approximately \$4.4 million.

The members of the Board and Directors of TCF are committed to using these monies to ensure the long-term support of the children at RVCV and in the Karatu region. On behalf of the Board of Directors and the entire TCF Community, thank you for making this possible.

R. Todd Cronan
Treasurer

Thank You to our Team, Board and Partners

We are forever grateful to those who have joined us in loving and caring for the children who call RVCV home. We continue to be humbled by the dedication of so many and the incredible sacrifices our board, team, and partners have made to help our community of 10,000 discover brighter futures. To our hardworking staff, senior leadership, loving house mamas, volunteers, and partners, thank you for empowering us to transform a generation.

2018 Board of Directors:

Peggy Bacon, Sallie Bear, Todd Cronan, Jody Drake, Eleanor Doar, Will Gray,
Linda Hayes, Kirsten Heinemann, India Howell, Peter Leon Mmassy,
Jim Schubauer, and Rob Rosser.
